## Big Impression in a Snap

The Poly-printed fabric is attached with Velcro and can be left on the frame. When the frame is unfolded, the graphic stretches smooth. This billboard-in-a-bag folds away into a soft carry bag. Perfect for trade shows, new product launches, event marketing or virtually anywhere you need to make a big statement.

- Lightweight for easier transport
- The graphic stays on even when folded down
- Simple and fast assembly and graphic change
- Cost effective – big exposure

Equipped with magnetic lockers backed up by security hooks for a reliable solution.

### Easy to change graphics

With Velcro-fastened graphics, changing the message could not be easier.

# VISION LIGHTSCREEN

Visions Lightscreens come in four standard sizes from 7" x 10" up to 30"x 40". Designed to be cable or wall mounted, combined with our lightweight freestanding display system and incorporate leaflet dispensers and display shelves.

Alternatively our smaller Vision Lightscreens can be used as standalone table top or counter displays.

## Innovative LED Lightbox

The Vision Lightscreen uses innovative low voltage LED technology to create an ultra slim acrylic lightbox that is only 0.25" thick. Images are easily changed and will be enhanced with intense, vibrant colour.

All components are lightweight and of the highest quality, making the displays both portable and durable. The system uses the minimum number of fixings and requires no tools or specialist knowledge for rapid self assembly.

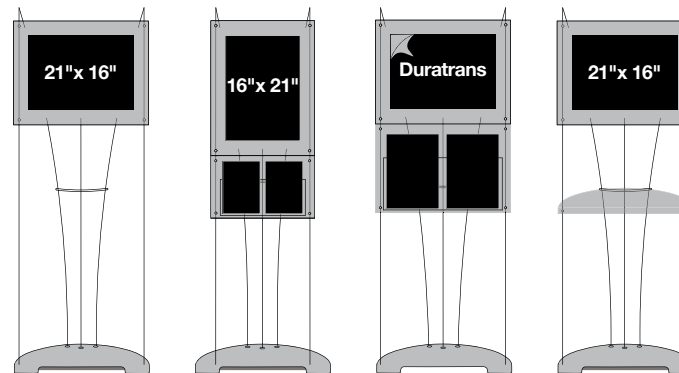

Polished aluminum masts simply slot into a laser cut steel base and are held in position by tension cables. The height of a standard display is 65" and it weighs approximately 16 lbs with all components attached.

Lightscreens come with 10 ft. of power cable, which can be concealed inside the central mast and a standard low voltage plug.

Vision Lightscreen is perfect for corporate lobbies, retail environments, seminars and exhibitions.

## Applications

# VISION TOUCHSCREEN

## Multi-functional LCD Multi-media Display

The very latest generation of our extremely popular LCD multi-media displays has many new and exciting features designed to engage and attract your customer's attention.

The Vision Touchscreen offers your customers the opportunity of interaction with your brands and products through its customizable touch panel screens.

The Vision Touchscreen is a completely self-contained multi-media display, which can be paired with a display stand that incorporates a graphic wrap. This can be custom printed to provide additional branding opportunities.

The Vision Touchscreen is lightweight, portable and very stable making it ideal for use within retail, hotel & corporate lobbies, events, seminars as well as trade show environments. In fact anywhere that you want to communicate with your customers.

Depending on location the display can also be used as a counter or tabletop display with its detachable support mount or wall-mounted using a standard monitor bracket. Alternatively our clamp mount enables it to be combined with our D5 Milan fabric wall structures.

Vision Touchscreen can be combined with a range of **literature holders**

## Features

Remote Control

Alternatively for different environments the Touchscreen feature can be turned off for standard remote control operation of the LCD monitor. The Vision Touchscreen operates on a low voltage power supply. The internal drive supports movie, photo, and audio content, loaded on CF Card, SD Card, or USB and programming the Touchscreen panel is achieved with XML software.

- 22" and 32" LCD Digital panel with 16:9 ratio
- 480p, 480i & 720p screen resolution
- Screen rotation for horizontal and vertical modes
- Touchscreen and standard play
- Programmable timing function for unmanned operation
- Selection and creation of play lists
- Supports several file formats:  
Photographic Images - JPEG  
Movies - Divx, AVI, and MPEG2  
Audio - MP3
